Registering A Free Domain With Freenom

By Dabeer Shaikh

On Mar 7, 2019

1. Go to **Freenom**
2. Search for a second level domain you wanna book

3. Select one of the free domains available, if you not getting free one then try some other domain name

The screenshot shows the Freenom website with the domain 'acloudxpert' entered in the search bar. A 'Check Availability' button is visible. Below the search bar, a message says 'Get one of these domains. They are free!'. A table lists four domain options:
